

**DESCRIPTION**

ALPHA CRDI PLUS DIESEL FUEL TREATMENT effectively removes carbon deposits from injectors and restores the optimal injector spray pattern. Lubricates the fuel pump and injectors and prevents needles from seizing. Improves combustion using effective cleaning agents and an effective cetane improver.

**USAGE**

For all diesel engines, incl. common rail, with or without turbochargers running on low or normal sulphur level diesel fuels.

**DIRECTION**

Pour the required contents in the fuel tank before filling it with fuel.

**DOSAGE**

One bottle 300 ml bottle treats 40 to 60 litres of diesel fuel.

Normal use: one bottle every 2000 km | Intensive or sportive use: one bottle for each tank filling.

**BENEFITS**

- Removes carbon deposits from injectors and restores optimal spray pattern
- Improves combustion and increases cetane number
- Lubricates the fuel pump and injectors and prevents needles from seizing/sticking
- Reduces corrosion and wear
- Reduces engine noise
- Lowers fuel consumption due to improved spray pattern performance
- Improves starting performance and eliminates knocking under low load conditions
- Reduces emission of hazardous exhaust gases

SPECIFICATIONS	RESULTS
APPEARANCE	TRANSPARENT LIQUID
ODOUR	SOLVENT
DENSITY @ 15°C	0.802
FLASH POINT	>61°C

**STORAGE INSTRUCTIONS & HEALTH, SAFETY AND ENVIRONMENT INFORMATION**

All packages should be stored under cover to avoid the possible ingress of water and the obliteration of drum markings. Products should not be stored above 60°C. Health, safety and environmental information is provided for this product in the relevant Materials Safety Data Sheet, which can be obtained by contacting Gulf Western Asia Pte Ltd.

**AVAILABLE PACK SIZES**

#330196
