

DESCRIPTION

The Mineral Compressor VG 460, 680 are premium quality, mineral compressor oils designed for use primarily in piston type compressor, as well as certain circulating system industrial oils. The Mineral Compressor VG 460, 680 are manufactured using specially refined mineral base stocks with outstanding oxidation stability and additives of low carbon-forming tendencies. They possess good water separation, anti-foam properties, and provide good protection against corrosion. Not suitable for use in compressors that produce air for breathing.

APPLICATIONS

- Piston type compressor
- Can be used as R&O industrial oil for certain circulating systems

SUMMARY OF BENEFITS

- High resistance to oxidation gives long oil service life
- Outstanding wear protection
- Excellent foam inhibition and water separation
- Good air-release capability
- Reduce maintenance costs due to less frequent oil changes

SPECIFICATIONS

- DIN 51506 (VBL) – VG 460
