

DESCRIPTION

POWER BOOSTER for Petrol Engine is a concentrated product that helps reduce engine wear, restores lost power, and increases engine efficiency. It is formulated with highly effective compounds to enhance lubrication. The product is comprised of anti-wear, extreme pressure, and oxidation inhibiting additives, plus an oil stabilizer to improve the strength and thickness of the oil film at high temperatures, high load, providing the essential level of protection for hard working engines.

BENEFITS

- Reduces friction and wear to improve engine power and performance
- Help to reduce oil burning
- Inhibits oxidation to reduce formation of sludge, gum and varnish deposits
- Oil stabilizer to increase oil viscosity to reduce oil consumption especially in older engines
- Suitable for use in all types and grades of petrol engine oil, including mineral, semi or full synthetics
- Supports smoother engine operation

DIRECTION FOR USE

- While the engine is idling and warm, pour entire contents (300 ml) into the crankcase. Drive the engine for 5-10 minutes for optimal mixing
- Make sure the oil contents do not exceed the maximum oil level in your engine
- Recommended to use with each oil change or between oil changes as needed
- One bottle treats 4-6 liters of motor oil

STORAGE INSTRUCTIONS & HEALTH, SAFETY AND ENVIRONMENT INFORMATION

All packages should be stored under cover to avoid the possible ingress of water and the obliteration of drum markings. Products should not be stored above 60°C. Health, safety and environmental information is provided for this product in the relevant Materials Safety Data Sheet, which can be obtained by contacting Gulf Western Oil on: 02 9673 9600. Dispose of any used or unused solution in accordance with the local, state and federal regulations.

ADD TO CRANKCASE

PACK SIZE. 24x300ML
